

17.14	On products and projections	?
17.14.1	Staroidal product	?
17.14.2	Cross-composition product of pointfree functors	?
17.14.3	Subatomic product	?
17.14.4	Other	?
17.15	Relationships between cross-composition and subatomic products	?
17.16	Coordinate-wise continuity	?
17.17	Counter-examples	11
17.18	Conjectures	11
17.18.1	Informal questions	11
18	Identity staroids	12
18.1	Additional propositions	13
18.2	On pseudofunctors	13
18.3	Complete staroids and multifunctors	13
18.3.1	Complete free stars	?
18.3.1.1	Completely starrish posets	13
18.3.2	More on free stars and complete free stars	14
18.3.3	Complete staroids and multifunctors	14
18.4	Identity staroids and multifunctors	17
18.4.1	Identity relations	17
18.4.2	General definitions of identity staroids	17
18.4.3	Identities are staroids	17
18.4.4	Special case of sets and filters	17
18.4.5	Relationships between big and small identity staroids	17
18.4.6	Identity staroids on principal filters	17
18.4.7	Identity staroids represented as meets and joins	17
18.5	Finite case	17
18.6	Counter-examples and conjectures	17
19	Postface	17
19.1	Formalizing this theory	18
	Bibliography	18
